Kinesiology: Athletic Training

MAJOR: Kinesiology – Concentration in Athletic Training

College:	Education
Degree:	Bachelor of Science
Hours for the Degree:	131
Website:	http://app1003.lsu.edu/educ/kines.nsf/index

Admission into the College of Education:

Students wishing to enter the College of Education and pursue a major in Kinesiology must satisfy the following minimum requirements:

- 24 hours of credit
- 2.5 cumulative and LSU gpa

In addition, students must earn advanced placement in, credit for, or a grade of “C” or better in:

- ENGL 1001
- MATH 1021 & MATH 1022
- BIOL 1201, 1208, 1202, & 1209

Special Program Requirements

Students intending to concentrate in Athletic Training must be selected for admission after meeting the minimum departmental and concentration criteria. Because of a limited number of clinical education sites, meeting all criteria for admission does not guarantee acceptance into the concentration. Admission requirements include the following:

- Completion of the Pre-Professional Orientation Meeting prior to obtaining the 100 hours of observational clinical experiences with the LSU Athletic Training staff. Dates and times for each meeting are available on the Department of Kinesiology Web site or by contacting the Director
- Evaluation of performance during observational experience
- Grade of “B” or better in KIN 2503
- Interview with program faculty
- Ability to comply with the Athletic Training’s concentration in technical standards, with or without accommodation, which establishes the essential qualities considered necessary to achieve the knowledge, skills, and competencies of an entry-level athletic trainer. A copy of the technical standards can be found on the Department of Kinesiology Web site.
- Completion of a physical examination through the LSU Student Health Center (forms obtained in the Pre-Professional Orientation Meeting)
- Favorable completion of an application packet provided by the Director of the Athletic Training Education Program, after completing the Pre-Professional Meeting. The deadline to submit the application packet is 12:00 pm on the second Thursday in April. It must be addressed to the Director of the Athletic Training Education Program.

Academic Probation/Dismissal

All students admitted to the Professional Phase of the Athletic Training Concentration program must adhere to the program retention policies as stated in the Athletic Training Student Handbook. The following policies apply to all students admitted to the Professional Phase:

- A student who drops below a cumulative 2.50 gpa after being accepted to the Professional Phase of the program will be placed on academic probation during the following semester. The student may apply for re-entry after raising the cumulative gpa to 2.50 or better. Approval for re-entry is not guaranteed.
- A student who receives a grade lower than a “B” in any athletic training concentration course will be required to retake the course. Students may repeat a course once to achieve a “B” grade, but they will not be permitted to continue in those courses that require the deficient course as a prerequisite.
- A student who fails to maintain the required gpa, violates policies on established clinical site requirements, or violates codes of moral/ethical conduct may be dismissed from the Professional Phase of the concentration program. (See current policies in the Athletic Training Student Handbook, LSU Athletic Training Room Policies & Procedures Manual, and Code of Ethics of the National Athletic Trainers Association.)

Any student requesting readmission to the Professional Phase of the concentration must follow the appeal process as outlined in the current Athletic Training Student Handbook.

Students graduating with the Concentration in Athletic Training are eligible to sit for the Board of Certification, Inc. (BOC) athletic training certification examination in order to become a Certified Athletic Trainer (ATC).
